Hey Dave,

I figured it out, bought the app and am bouncing and Cellercizing with it already.

It's fantastic to have such company. My sessions fly by now and I am just SO pregnant with big expectations.

- Already the Cellerciser has fixed my knee problem (From using a cheaper model originally)
- Controlled a slight bladder leaking
- Strengthened my legs so I can now do things I wasn't able to before
- Is clearing my skin because people say I look 50 not 63
- And given me an all round light and fit feeling that I've wanted and tried getting other ways, for years without success.

I left it alone for nearly 2 weeks at one stage and BOY did I start to feel the difference.

I got back into it quick smart and went back to feeling great within two workouts (Although a little sore in muscles again)

There is no doubt in my mind God has led me to the greatest invention for getting the body into tip top shape all round.

The app is now my closest friend and we are getting along fantastically. I love the variations in music and as I said, I fly through a routine and am finished before I know it.

May God continue to Bless you and your desire to see us in better

health Dave.

Thank you for your acceptance to His call and I'm so happy that He brought you through to the other side of your own health issues back then.

All the best to everyone in my Cellerciser family also !

PS..... never buy a cheaper re-bouncer. It will set you back in months of pain, but if you have, the Cellerciser can gently fix it.

Sincerely

Christine [REDACTED] Australia

Hi Christine:

The new App is subscription based and requires a PayPal account. It can be purchased on our website store www.cellercise.com/shop.

Best in health,

Dave Hall, President
