Dear Dave:

I want you to know how much we use and appreciate our Cellucizer. (We call it a bouncer and what we do on it is bounce!) Both my husband and I use it daily. We each have a routine that takes about 15 minutes to do. Bouncing has made an amazing difference in how we feel . . . and look. It is not only energizing, but it reduces stress and creates a general overall feeling of well-being.

I was a walker and usually walked 30 minutes a day. In Cleveland in the winter, this was often difficult. The Cellucizer has solve the problem. In fact, I have found that 15 to 20 minutes on the bouncer is better than my former 30 minute walk! My heart rate, respiratory rate, and muscles all get a better workout on the bouncer.

My husband and I have both lost inches using the Cellucizer. This has been quite dramatic for my husband. (He likes his beer and food!) Now he has a trim stomach and looks really great. I have always been on the slim side, but as I got older I put on inches where I least wanted them - across the belly and on the hips. I have reduced these areas noticeably since I have been using the rebounder. I am in clothes I thought I would never wear again!

I kept telling my sister how wonderful the Cellucizer was. She was skeptical until she came to visit me this summer. Now she has one and loves it too. In fact, she noticed weight loss within two weeks of using the rebounder. She says her stomach is the flattest it has been in years. Mind you - this is a person who has at one time or another owned every type of exercise equipment on the market. I have seen all kinds of expensive and exotic machines come and go at her house. She says the rebounder is the best piece of exercise equipment she has ever owned.

When I first saw you at the Whole Life Expo in Cleveland a year ago (fall of 1998) I knew instinctively that what you were doing on the rebounder was something I would like to do (and would be able to do). And I was right. I have never regretted purchasing our Cellucizer. A year later we are still using it regularly because it is

easy, fun, and produces results. I have to say though, that I think the real reason we keep on using it, beyond the weight control and reduction in inches, is the way we *feel* when we bounce. We just feel better all over when we use the Cellucizer regularly.

Thank you for introducing me to your program for fitness and health. I look forward to seeing you again at next year's Whole Life Expo in Cleveland.

Sincerely,
